

2020 Secondary Booklists

12 November 2019

Dear Parents,

Secondary booklists for 2020 are now available.

For your convenience, you can purchase all stationery and textbooks required through the Officemax online service. Some listed items can be sourced elsewhere if preferred; however, we recommend all eBooks are purchased through this service to ensure ease of access using the OMX eBooks app.

Here are some points to help outline this process:

1. How to access booklists

- Visit www.mcc.vic.edu.au and select 'Booklist' under the Quick Links section.
- Select the relevant year level's booklist you require.
- Follow the instructions on the front page of the booklist to access it online.
- The required access code is printed on the booklist front page.

2. When to purchase books

- Please take note of delivery cut-off dates on the front page of the booklist to ensure all texts are purchased in time for term 1 2020.
- Free delivery ends on the **8th of December 2019**.
- Orders placed **after 31st December** may not arrive prior to the start of term 1.
- It is highly recommended VCE students have their books over the Christmas break to complete holiday homework.

3. Years 7-10

- Most of the Year 7-10 texts are eBooks that will be accessed on student iPads.
- Workbooks and novels are generally supplied in print.
- Some textbooks are only available to purchase in print, not as eBooks.
- Year 10 students studying a Year 11 subject are required to use the Year 11 booklist in addition to the Year 10 booklist to access the required texts for that subject.

4. VCE

- Students can generally choose between using texts in print or eBook format.
- Some subjects only have a print option available, most of which include a digital version.

5. Delivery of books

- Print books and stationery items will be delivered to your home address by Officemax.
- Digital books: Officemax will send OMX eBooks login details and instructions directly to the student email address you enter during the ordering process.

- c. Students should use their MCC email address when prompted during the ordering process ('username@mcc.vic.edu.au'). If you are unsure of your email address, please contact the College. Alternatively, you can leave this field blank and complete the ordering process. Officemax will then contact the College for details required to complete the order.
- d. Students are encouraged to log in to the OMX eBooks app prior to the start of term 1 to ensure they have access to the required texts. Students will be supported by teachers if they are unsure how to access particular resources.
- e. eBooks are generally not refundable, so ensure you purchase for the correct subjects.

6. Stationery items

- a. Most subjects have required stationery listed alongside required texts. Other pencil case items that are usually needed are included in the general stationery section.
- b. If stationery items are not being purchased through Officemax, please ensure items are similar to those requested. For example: exercise books rather than binders.
- c. Each item has a default quantity; you can adjust these as required prior to finalising your order. If an item is not required, you can change the quantity to zero.
- d. Do not over-order as some items can be retained from previous years.

7. Online courses & additional charges

In 2020 we will continue incorporating some online courses to complement the textbooks used in class. These courses help to ensure students are provided with up-to-date, relevant content. These courses were not able to be included on the booklist, rather they will be automatically charged to your account in 2020 if your child takes those subjects. See below...

Year Level	Subject	Online Course or Textbook	Cost
7/8	Digital Technologies	'Grok Learning' online programming course	\$30
9	Digital Technologies (Elective)	'Grok Learning' online programming course	\$30
7-10	Maths	'Mathspace' online textbook and resource package	\$35
9/10	Science	'Edrolo' online Science course	\$30
VCE	Methods Unit 1/2 & 3/4	'Mathspace' online textbook and resource package	\$35
VCE	Biology Unit 3/4	'Edrolo' text & online resource package	\$75
VCE	Chemistry Unit 3/4	'Edrolo' text & online resource package	\$75
12	VCAL	Personal Development Project Planner	\$35

8. Further Assistance

- a. If you require help placing your order or have general questions regarding the booklist, returns or delivery visit <http://officemaxschools.com.au/help>
- b. You can also contact the College on 9732 3000 for clarification on any of this information.

Yours sincerely,

Mr Simon Doherty
Technology Faculty Team Leader

Mrs Kristie Barber
Head of Teaching & Learning
